

# 2021/2022 P.A.Z.NIA STEAKholder Bulletin

[Phase Two: Cutting Ties & Disconnecting From Babylon]

Authored & Assembled by: Shane/Rayo2

[Includes: 2021/2022 STEAKholder Bulletin & STEAKholder Information Guide]

*In the real world, liberty will be limited for a long time to come to self-liberated individuals and (perhaps) libertarian mini-cultures and freeports. But this is not grounds for pessimism or defeatism. One can forget about the herd and become free, once he exorcises the collectivist spooks from his head.*

-Rayo, Vonu: *The Search for Personal Freedom*

Well, hey there. My name is Shane/Rayo2, and I'm the founder/Second Realm Coordinator of *The Free Republic of P.A.Z.NIA* – Veritas, P.A.Z.NIA to be specific – as per Article 333,555,777, Section 33 of the P.A.Z.NIA Constitution. My other roles here include (but are certainly not limited to):

- Lead Sheep Herder, Permaculture Farmer-In-Training, Lead Astronaut @ The P.A.Z.NIA Secret Space Program/Freedom Observatory (S.S.P./F.O.), Prospector @ The P.A.Z.NIAN Bitcoin Mines, Wordsmith @ the P.A.Z.NIA Lbry

In this *P.A.Z.NIA STEAKholder Bulletin*, we'll cover the progress and developments, highlight the benefits of joining this Second Realm/P.A.Z.NIA Network (i.e. [become a STEAKholder!](#)), & will conduct another re-examination of the future with new experiences & knowledge under our belts.

**\*What have we accomplished in P.A.Z.NIA since our inception? (A LOT, thanks to our STEAKholders!)**

- A solid foundation for this Second Realm network
- Birds (chicken, duck, & turkey) for meat & eggs
- Free range ruminants (lambs & goats), with a number of them being raised for nomadic STEAKholders
- Four initial permaculture/garden zones, as well as an apothecary & herbal/medicinal gardens
- The official launch of the P.A.Z.NIA Secret Space Program, Department of Transportation, & Department of Health & Wellness
- The creation and utilization of the P.A.Z.NIA General Fund
- The framework for this coming intentional community here at Veritas...
- & more!

While I would have been able to slowly (and less enjoyably) build up the homestead alone, the support (monetary & otherwise) from STEAKholders has helped to greatly expedite the process...and for this, I'm eternally thankful.

And not only thankful, but extremely hopeful. After 5+ years of working through solutions publicly and privately, the vision for this free future (#TheFreeRepublic) is finally coming together in my head and becoming a manifested reality here in our shared, physical space and time.

In 2020, just in time for [VonuFest1](#), we set our goal of achieving food self-sufficiency with Phase One of our overall vision here at Veritas. No deadlines or timelines were set, but it looks like it may become a reality...and in under two years.

[Coordinator Note: Keep a lookout for the full food self-sufficiency guide highlighting what we've learned. It will be released for free in the coming months in at least video, podcast, & article format, if not also physical paperback.]

For now, though, it's time to peer into the future...

### **\*What is the P.A.Z.NIA vision for 2022 (& beyond)?**

Our focus on food will certainly continue and advance in the background, but two other critical items come to the forefront immediately:

- 1) Building The Second Realm/P.A.Z.NIA Network
- 2) Cutting Ties & Disconnecting From Babylon

Let's continue to build the Second Realm.

~~~

### **#1: Building The Second Realm/P.A.Z.NIA Network**

Allies of freedom & self-liberation are everywhere, and the Internet has certainly showed us that much. We've all connected in the digital realms, oftentimes on censorship-prone, privacy-unfriendly platforms...but now it's time to rebuild all of our human institutions and arrangements upon a framework of peace, cooperation, and voluntarism, rather than the coercion/deception so prevalent within the First Realm.

We've discussed a privacy-focused map of P.A.Z.NIAs/Second Realms to be made available to FOUNDING (vetted) STEAKholders within the network; along with this, I envision an overarching P.A.Z.NIA chat, with subgroups of various geographies across the USSA.

With physical & digital communications established, the possibilities are endless. Some ideas posited by me or other self-liberators include:

- Seed exchanges -- whether just sending extra seeds to other P.A.Z.NIAs or coordinating bulk seed orders
- Division of labor -- different P.A.Z.NIAs can specialize in different things (i.e. high quality animal nutrition here at Veritas, maybe manufacturing/construction at another, etc.), making the entire network more resilient and less dependent upon the First Realm
- The *P.A.Z.NIA Department of Transportation* -- utilizing the nomadic proclivities of our fellow vonuans to build a resilient, decentralized logistics and transportation network

- When traveling/nomadic, coordinating stops/stays at like-minded outposts prevents time in the coercive First Realm, and transfers more resources to the Second Realm
- Much easier coordination of physical (& digital) mutual aid
- And more...

Of course, this is a non-exhaustive list.

Initial To-Do:

- 1) Put together directory of P.A.Z.NIAs/Second Realms to be included
- 2) Build map
- 3) Release on private/STEAKholder portion of website (still to-be-built)

~~~

## #2: Cutting Ties & Disconnecting From Babylon

In the past, I've defined self-liberation as *the constant action of shedding that which enslaves and restricts, while simultaneously building and creating an environment in which freedom can thrive.*

Put another way, it's the cutting of ties, the disconnecting of one's self from Babylon, as well as the building of resilient & decentralized alternatives. This is indeed what I've found to be the most liberating actions to pursue.

In a more collective or community sense, this means the facilitation of off-grid water, off-grid electricity, alternative sources of food outside of grocery stores, and most pertinent in the years 2020/2021, actual health & wellness using methodologies/remedies like Ayurveda, traditional Chinese medicine, homeopathy, plant medicines/spagyrics, & much more.

What could the liberation of these human institutions from the First Realm look like? Let's find out...

**[OFF-GRID WATER]**

This one will be rather easy to accomplish, whether pre- or post-off-grid electricity, & with or without a well dug.

One possibility available now: a simple water pump installed in the P.A.Z.NIAN Sea, fed through the [Live Pristine Water Revival System](#), would solve all water needs.

Water Revival System® - Under-Counter (WRS-UC4)

**\$ 1,995.00**

Faucet Finish

Quantity

1

 Add to Cart

Not only does the LivePristine six-stage filtration process remove any heavy metals, fluoride, pesticides, chlorine, and any other possible trace contaminants in the water, but stages 7, 8, and 9 are the remineralization, a coconut carbon filter (for enhanced flavor), and the restructuring/recharging of the water (via the use of lodestones & quartz to simulate the properties of a living stream), respectively.

The same solution (LivePristine) would be used with the well too.

To-Do:

- 1) Fix/obtain pump for P.A.Z.NIAN Sea or dig well
- 2) Purchase/install LivePristine system (~\$2,000)

**[OFF-GRID ELECTRICITY]**

This is a relatively new area for me, and so I won't go into as much detail...but suffice it to say, like the ancient relic technology more commonly known as "roads", it's time to evolve beyond a fascist, centralized power grid maintained by aesthetically disgusting aboveground powerlines.

Not only are there two or three possible alternatives, but there are over a dozen I've come across myself. The easy fallback is solar panels fed into a battery array, but other solutions like the [magnetic motors found here](#) really expand the mind.

Double Stacked Mini 4 DualPole Motor (older coils)

And since P.A.Z.NIA is, by its design & nature, separate from the First Realm (and therefore, no chasing of patents or Babylonian Magic Rectangles/FRN's), a free/liberating energy setup could be distributed safely and reliably to our overarching network.

To-Do:

- 1) Conduct testing of magnetic motors & other possibilities

## [ALTERNATIVE SOURCES OF FOOD]

Once individuals/individual homesteads achieve a level of food self-sufficiency, the goal might be to expand outwards. Instead of stopping at grocery stores in towns, fellow self-liberators could plan their trips around these aforementioned self-sufficient homesteads, being able to have both food self-sufficiency from the First Realm, as well as the potential benefits of nomadism.

Here at Veritas, we hope to sell garden-stuffs, lamb, duck, & bird eggs in 2022 to STEAKholders, tourists, or trusted local trading partners. Raw and fermented dairy products will be reserved for STEAKholders.

Our passion for this is not only as another source of Second Realm income, but because we only wish to raise the highest quality animals, in accordance with their respective, species-specific diets. They'll taste better & be more nutritious for us, and since they won't be chronically poisoned (as is the case with feedlot animals), our animal friends at P.A.Z.NIA live much better lives, get to roam around, and receive the utmost in gratitude for their service.

## [HEALTH LIBERATION]

Almost regardless of where one finds themselves in the world at this moment in time, the biggest coercer is indeed Babylon Pharmaceuticals. And despite what the quacks in white coats might say or want you to perceive, allopathic medicine is a rather new phenomenon in the grand scheme of humanity.

Even if a self-liberator (for some reason) desired a Babylon pharmaceutical poison, the barriers-to-"care" will likely continue to get more coercive in the future, if the price for entry isn't already too high. As an example, experimental gene therapy with longstanding consequences could be a required precursor to a basic doctor's visit.

But let's get back to fundamentals here...if any individual in question would simply, 1) stop chronically poisoning themselves with toxic food, water, propaganda, etc., and 2) fix nutritional deficiencies, the vast majority of so-called "dis-ease" would disappear, in my humble opinion and with much supporting evidence.

And while the above two things really are the best prevention & methods to restore balance in the body, Babylon Pharmaceuticals has done a number to many, including myself, with the severe over-prescription of antibiotics and injectable poisons (& just Pharma "treatments" more generally).

Sometimes, additional modalities and methodologies are necessary to restore said balance, such as an [SE-5 100 Intrinsic Data Field Reader](#), the [AquaCure](#) HydrOxy electrolyzer, ozone therapy machines/generators, electrical/magnetic healing devices, and a supercritical CO2 extractor (for spagyrics/medicinal herbs), to name some examples.

Many of these things are rather expensive and just not feasible for one individual; especially one not trained in their use or without a desire to learn.

One function I foresee of P.A.Z.NIA is that it's a health cooperative of sorts (*The P.A.Z.NIA Department of Health/Wellness*), wherein STEAKholders will have access to the above (as we are able to obtain them). Much like the bulk seed purchasing mentioned above, Veritas could also buy & store large quantities of critically important remedies like DMSO (dimethyl sulfoxide), shilajit (fulvic & humic acid), nutritional/vitamin supplements (vitamins C, d3, k2, zinc/copper), etc.

This private membership setup (not serving the general public) would also provide another layer of protection from the coercers.

Lastly, it's worth noting that *Ora's Apothecary* is already open & helping many here at *The Free Republic of P.A.Z.NIA*...you can check out her products at [her Etsy store](#), but email her ([oradeveritas@protonmail.com](mailto:oradeveritas@protonmail.com)) to place an order if you like.

~~~

## How can YOU join this Second Realm network AND help to bring it to fruition?

### JOIN THE SECOND REALM

I hope the overview above helps in further forming the vision of P.A.Z.NIA and the overarching Second Realm network that is already being built.

We likely won't accomplish all-of-the-above in the year 2022, but much of it is definitely feasible. It may just take a few years for all of it to come together.

So, how can you join the Second Realm and assist in bringing these visions to reality? Simply put, **become an HONORARY (\$333 donation) or FOUNDING\* (\$555 donation) STEAKholder.**

Either **STEAKholder membership** includes:

- Discounts to other businesses/hustles in the agora
- Access to the Second Realm network of non-coercers
- As Veritas is built, opportunities could include:

- Another option for a bug-out location, with livestock/food/supplies awaiting you at the property
- Be a part of the coming unique “intentional community”; help bring the homestead up to self-sufficiency
- Big donors who help to fund projects (*The Freedom Observatory, The P.A.Z.NIA Lbry, The Milton William Cooper Fallen Allies Memorial, etc.*) will have the option to name the area and be etched in permanence with a plaque
- Access to *The P.A.Z.NIA Department of Health/Wellness* (healing devices & treatments)(visitors must be vetted)

**HONORARY STEAKholder** Donation Tiers:

- [\$3 DONATION] STEAKholder "ID" card
- [\$55 DONATION] P.A.Z.NIA Sticker, "ID" card, & digital Self-Liberation Bundle from *Liberty Under Attack Publications*
- [\$99 DONATION] "ID" card, digital Self-Liberation Bundle, & P.A.Z.NIA Flag
- [\$333 DONATION] All of the above + an official P.A.Z.NIA Passport, & P.A.Z.NIA Beach Towel
- With special offers from *Liberty Under Attack Publications*

**FOUNDING STEAKholders** also receive:

- P.A.Z.NIA Flag, “ID”, P.A.Z.NIA Beach Towel, & P.A.Z.NIA Passport
- Access to the P.A.Z.NIA/Second Realm map & directory
- Be a part of the alternative/decentralized energy rollout
- Beta-test/contribute to the building of various infrastructure projects (i.e. *The P.A.Z.NIA Lbry*)
- Lifetime 25% discount to *Liberty Under Attack Publications* and goods/services at P.A.Z.NIA (meat, eggs, dairy, chicks, etc.)
- Early access to purchase items available at Veritas
- An exclusive invitation to our yearly gathering of self-liberators, *VonuFest*

(\*FOUNDING STEAKholders/tourists must be vetted, not open to all.)

**FOR PREVIOUS STEAKholders:**

- ✓ HONORARY STEAKholders: Secure your new HONORARY STEAKholder membership at 50% off (\$166)
- ✓ FOUNDING STEAKholders: Secure your new FOUNDING STEAKholder membership at 50% off (\$388)

# [THE FREE REPUBLIC OF P.A.Z.NIA]

## STEAKHOLDER INFORMATION [UPDATED 7/2021]

### 1) STEAKHOLDER INVESTMENT SUMMARY

The Free Republic of P.A.Z.NIA is a 22-acre homestead, located in what the servile society calls “southern Illinois”. Eventually, the objective is an off-grid, self-sufficient intentional community, serving as a node in the overarching Second Realm network.

## 2) MARKET OVERVIEW

COVID1984, centralized supply/logistical chains, and just the general ramp up of authoritarianism has accelerated the need for and focus on organizing outside of “politically unsafe” platforms, whether in the physical or digital realm. Furthermore, with additional forms of control and restrictions on travel impending, the time is now to build up our Second Realm alternatives.

P.A.Z.NIA solves numerous problems at the forefront of a free humanity: 1) food self-sufficiency, 2) stability/safety, 3) opportunities for income, 4) and the facilitating of human interaction/development of an alternative culture.

~~~

## BECOME A PAZNIAN TODAY & HELP INVEST IN THE FUTURE OF FREEDOM!

**FOUNDING STEAKholders** also receive:

- P.A.Z.NIA Flag, “ID”, P.A.Z.NIA Beach Towel, & P.A.Z.NIA Passport
- Access to the P.A.Z.NIA/Second Realm map & directory
- Be a part of the alternative/decentralized energy rollout
- Beta-test/contribute to the building of various infrastructure projects (i.e. *The P.A.Z.NIA Libru*)
- Lifetime 25% discount to *Liberty Under Attack Publications* and goods/services at P.A.Z.NIA (meat, eggs, dairy, chicks, etc.)
- Early access to purchase items available at Veritas

Either **STEAKholder membership** includes:

- Discounts to other businesses/hustles in the agora
- Access to the Second Realm network of non-coercers
- As Veritas is built, opportunities could include:
  - Another option for a bug-out location, with livestock/food/supplies awaiting you at the property
  - Be a part of the coming unique “intentional community”; help bring the homestead up to self-sufficiency
- Big donors who help to fund projects (*The Freedom Observatory, The P.A.Z.NIA Libru, The Milton William Cooper Fallen Allies Memorial*, etc.) will have the option to name the area and be etched in permanence with a plaque
- Access to *The P.A.Z.NIA Department of Health/Wellness* (healing devices & treatments)(visitors must be vetted)

### 3) BUILDING PLAN

The plan for P.A.Z.NIA is laid out in what we're calling "The Three Phases."

#### [PHASE 1] A SOLID FOUNDATION

- The first phase is the general expansion of the homestead in a more rapid fashion, with a focus on food self-sufficiency. Projects include (but are not limited to):
  - Expanding the pasture to accommodate more goats/lambs; purchasing/planting hemp seeds in their grazing fields to add a cannabinoid profile to the meat; chicken, duck, turkey, and quail egg incubation starting in January.
  - An expanded indoor "vegetable" grow room.
  - Updated 7/2021: All accomplished, except for adding additional seeds to the grazing fields.

#### [PHASE 2] NEXT STEPS

- ~~Convert a portion of the shed to a house for a couple bison, yaks, or a few pigs and fence up the other pasture; begin steps towards off-grid well water (water testing, etc.); patch small pond and get ready for fish.~~
- Updated 7/2021: 1) Building The Second Realm/P.A.Z.NIA Network, 2) Cutting Ties/Disconnecting From Babylon (see above)

#### [PHASE 3] SEMI-PERMANENCE

- Focus on the construction of an intentional community; begin permaculture farm; defense.

### 4) PLANNED/FUTURE PROJECTS

#### [THE MILTON WILLIAM COOPER FALLEN ALLIES MEMORIAL]

The MWC Fallen Allies Memorial will honor/remember those who came before us. They might have been vociferous messengers of Truth; they might have had the courage to stand up for what's right in the face of tyranny; or they might have become the unfortunate targets of the coercers.

The MWC Fallen Allies Memorial will ensure that their spirits and memories live on.

Donators of \$100 or more will be able to customize a plaque/etc., memorializing a self-liberator or freedom fighter of their choice.

#### [THE P.A.Z.NIA SECRET SPACE PROGRAM]

The acquisition of a telescope will mark the official \*launch\* of the P.A.Z.NIA Secret Space Program. Science is about observation...so, let's observe.

Celestron NexStar 8SE  
Computerized Telescope

SKU : CE-11069

[COMPLETE, AS OF APRIL 2021]

[THE P.A.Z.NIA LBRY]

The P.A.Z.NIA Lbry will be a digital (and hopefully physical) archive of books, guides, schematics, and anything else, on a wide variety of subjects: gardening, raising livestock, permaculture farming, 3D printed gun files, historical texts, etc.

It will be archived on multiple redundant and resilient platforms - the aboveground Internet, the deep web, decentralized networks, blockchains, etc. Funds raised for this will go to server/data storage costs; as this fund grows, we will begin to investigate physical archives.

5) GEOGRAPHY/LOCATION

Speaking in terms of legal interstices, *The Self-Liberator's Paradise* is located in an unincorporated area; this means that no one will come around looking for building permits, electrical grid connections, or whatever else.

P.A.Z.NIA is located 6-7 miles away from a gas station (Herrick); 10 miles from a Dollar Store; and ~25 miles away from a medium-sized city (Vandalia), which has grocery stores, liquor stores, etc.

## 6) P.A.Z.NIA WILDLIFE AND HUNTING PRESERVE

The beautiful wilderness encircling P.A.Z.NIA is well-supplied with deer, squirrels, a local fishing pond containing bass, catfish, and bluegill, and wild blackberries can be found seasonally. Also of note is wild ginseng, golden seal, and plenty of other herbs/plants that could carry value (monetary or otherwise).

I'm not saying it's easy, but one of my neighbors lived out here forever, his only source of income being his foragings. It's possible, if you're just crazy enough!

## 7) THE NEXT FEW MONTHS...

Now that you have a more general understanding of the vision for P.A.Z.NIA, let's get into some concretes. What will the next few months look like?

I hope to be well on my way through Phase 1. More specifically, come January 1, I want to have all of the necessary supplies (including fertilized eggs) to begin egg incubation. In order of importance/preference: chickens, ducks, quail, and turkey. Each incubation cycle should be less than 30 days, which means, by April/May, there should be a large, healthy, varied stock of young birds - in other words, food that produces food!

By next year, I will have the pasture expanded to take up most of the west side. This will allow for the purchasing of more lambs/goats.

Other things of note: alternate source of water for livestock? Lights, etc. to expand vegetable room.

Your financial investment would certainly help to expedite the process.

[ALL COMPLETE AS OF 7/2021]

## 7) POTENTIAL INCOME SOURCES

One thing I've realized this year is the abundance of ways to make money/create value on a homestead. These potential income sources are not only ways to self-finance future upgrades to the homestead, but could also be potential avenues for folks interested in joining the hopeful, future intentional community.

The following is a portion of these ideas:

- Selling food (meat, eggs, dairy) - prices are only going up
- Wool - prices are going up, near \$2/pound now; I don't know how profitable it is, but it's an option
- Hemp/industrial hemp
- Etc.

HAVE A CUSTOM DEAL/IDEA YOU'D LIKE TO DISCUSS?  
LET'S FIND A TIME TO TALK!

- RESERVED PARKING/CAMPING?
  - GETTING A LAMB/GOAT?
  - BARTER ARRANGEMENTS?
- QUESTIONS/COMMENTS/SUGGESTIONS?
  - OTHER???

BITCOIN CASH (BCH)
